Hi Barb, I will check the stock and advise.

Everything that was changed to MX filters we have been covering the cartons to say Made in MX. (We have come across ctn's that say made in usa or made in Germany)

The below sample we never heard this was a problem, we haven't covered any ctn's that are from China or USA. This is another step for us to keep track off, I will have to create labels to say Made in China in the three languages to cover any upcoming issues with the boxes.

Adding our line lead so she is aware of this, Chelo from now on we need to check the origin that the 1pc carton has printed to match where the filter was made.

Thank you

Jomayda Torres

Hi Mayra - see below issue on this part - carton has USA and label on master pack is China. China is correct. Please check your inventory on this carton - I think it is 205330pkg. If you have inventory, it would have to be relabeled to COO China before using them in the future. We have another order for 336 due 4/14.

Let me know what you find.

Thanks,

Barb Raftis

Subject: GMCCA Issue With Part #25313825

[EXTERNAL EMAIL] This message was sent from someone outside the company. Please do not click on links, open attachments or unsubscribe unless you recognize the source and know it is safe.

Filtran Group:

GMCCA has identified an issue with one of your part numbers at our Memphis ACDelco Distribution Center. The Country of Origin for part #25313825 was declared by your organization as China on the affidavit you submitted. The distribution carton has that Country of Origin printed on it, as does the part itself, but the inner cartons say "Made in USA" under the part UPC "A" barcode. Please immediately check your records, correct any stock you have in-house to remove this "Made in USA" designation, and verify that your printing equipment has the correct Country of Origin for this part number. Additionally, any other part numbers you supply to GMCCA should be checked for similar issues. Thank you.
